CSS News and Upcoming Events

The Social event for January Annual CSS Banquet - John Force 1/19
The Club event for January
Other events for January Homeland Security Training:

All members are welcome to attend the Board meetings. As you can see, many did

You can also see that we do have a good time too.

Who We Are

We are a car club made up of Corvette owners with a passion for a fine driving machine, with the goal to participate in and support auto-related activities, such as: car shows, auto-crossing, rallies, drag racing, caravans, cruises, parades, etc.

We support (N.C.C.C.) **National Council of Corvette Clubs, National Corvette Museum**, several social, civic, and charitable organizations. CSS is incorporated as a non-profit organization in the County of Orange, California.

Corvette Super Sports was blessed during 2012 to have provided venues that attracted many participants. From our activities, we were able to donate \$3,200 to our charities.

HIS House	\$800.00
CHIPS for Kids	\$800.00
Council On Aging	\$800.00
Operation Home Front	\$800.00

CSS Family Updates

Please remember Jackie Lyon as she mourns the loss of her Dad on 12/22 and Doug Lyon who lost his mother in October.

Please keep Jan Works in your prayers as she recovers from recent knee surgery

President Geoff

As many of you already know and the rest of you will soon know, over the past 5 years I have been the ghost writer for 3 CSS Presidents' monthly byline. It all started when Greg was our President and he had family issues that prevented him from writing his byline one

month. I stepped in and wrote it for him and basically never stopped. I wrote for him for almost 2 years. I am the one that wrote that he had decided to purchase a ZR1 with the proceeds of our car show and use the car as a raffle prize. I am also the one that wrote that he had decided to NOT step down and stay on just because he wanted to be the one that accepted the award for "Under the Radar" at the NCCC Convention. Again, it was my writing that got us all to recite the Corvette Ten Commandments at the meetings. Well it went on and on - all in fun - even when you members thought Greg was serious.

Then when Cindy took over at President, I volunteered my services as ghost writer and Cindy refused except for a couple of times when she was unable. I had to promise that I would not embarrass her and I did not but I did hide some doozies in her byline that she never caught.

Then when Dianne became president I wrote for her several time and was the one who wrote about her going to Bowling Green to talk to GM Execs about the purchase of yet another ZR1. Everyone in the club missed the fact that this subject had come up once before and called her asking why.

All of the bylines that I have written over the years were meant for fun and they did generate many laughs. So when Cindy offered to write my byline at the banquet I could not stop laughing. Thank you Cindy, but I think I have the hang of it.

As I said in my remarks during the banquet, it is my sincere desire to make every meeting and every event a fun filled experience starting with my self written bylines. Then we will address the interests of the members for car shows, rallies, and auto crosses at each meeting to celebrate our winnings. We will compete our model cars at meetings and we will go out of our way to spend time with our friends at other clubs nearby too.

This is starting out to be a fun filled year. The banquet was amazing and we should all thank Bert for organizing and planning it. Dianne got the fun started with the gifts to her staff. Ole' "U-Turn Girvin" now has maps galore.

So remember, wear your favorite hat at the next meeting like I did at the banquet, and lets start this fun filled year right. Lets show the West Coast Region that we are number one for a reason.

Keep Driving, Have Fun, and Save the Wave

Geoff

The VP's Word

Congratulations to Bert Wiest. He is the recipient of January's Good Deed of the month. Bert arranged and produced an outstanding Annual Banquet. The John Force facility was excellent and the food was tasty. The ceremony was smooth because he planned and scripted it. "I enjoyed being able to put on a nice banquet for the club. It was not too hard." he said.

Heads-up! Below are some scheduled February events. Go forth and make merry.

Saturday, Feb 2 is the 10th Annual CARE car show in San Juan Capistrano. Register online for \$40. Note web site <http://www.sjcrotary.org/carshow/>

This runs from 7:30 a.m. to 3:00 p.m. Meet at San Juan Capistrano Community Center/Sports Park. 25925 Camino Del Avion. If it is raining, the date shifts to Feb 9. Breakfast, lunch, and refreshments will be available. Show cars park on grass. There will be vendors, exhibits and displays. Prizes and opportunity drawings too. This supports San Juan Capistrano Rotary Charities and Capistrano Animal Rescue Effort (CARE).

Sunday, February 3 is the CSS Super Bowl party at Bob & Kelli's. Show up around 2 p.m. for the 3:30 kickoff. Throw in 50 cents for the 100 squares game pool. This is a potluck; bring some chow. We will have play money for the betting during the game. Rules to be announced. Wear your helmets and shoulder pads. No cleats...too hard on the wood floors.

Saturday, February 9 is the CSS bowling party, not to be confused with the Super Bowl party. We do this every year. 2 p.m. meet at the La Habra Bowl on Whittier Blvd. Bowling starts at 3:00. Pot luck lunch and awards after. Flyers will be at next meeting.

Friday – Monday, February 15-18 is Las Vegas Corvette Association (LVCA) 40th President's Run. This will be in Ventura. Contact Benita Klaizner at 805 614 7968. Their flyer is on their web site Events Page at <http://www.vegascorvettes.com/index.html>.

Saturday, February 16 is the Vette Set Sweetheart Mystery Poker run. 10 a.m. meet at Krispy Kreme parking lot (if no rain) 1199 W. Artesia Blvd, Gardena Ca. This is at the beginning of the 91 fwy, just off the 110 fwy. If it is raining, do not go. Cost is \$15. If you have questions, call Linda or John Tully at 310 378 4062. Their web site is <http://www.thevetteset.com/index.html>. Go to the calendar page and click on the Feb 15 date to see the flyer.

As your Vice President, I shall try to keep you informed about future and past events. In order to do this, I will be telephoning you and asking about your experience in a recent event.

Please contact me if you have any suggestions or comments regarding the way the club is operating. I will keep an open ear and closed mouth.

"To mingle friendship far is mingling bloods." (Shakespeare, The Winter's Tale 1.2.135)

Art

Charities: Bob Reed

As I am writing this article about our club's charities, the song "Lean on me" is playing in the background. It makes a simple point: sometimes a person needs someone to lean on for help, and that

sometime in *your* life you will also need someone to lean on.

Today, as this new year, 2013, unfolds, we hear of people around the world, around our country and around our community that need someone to lean on. Whether it is relief from Super Storm Sandy, mending hearts and quelling fears from school shootings, people losing their homes or the elderly being duped by those whom they trust, we all need to care, for we may be there ourselves someday.

This past year our club's dollars supported four worthwhile charities, CHiP's for Kids, H.I.S. House, S.T.E.P. (formally Operation Home Front) and Council on Aging. Also, under our program of "Give and it won't hurt" we provided dozens of cell phones to "Cell Phones for Soldiers" and almost 15 pounds of used greeting cards to "St. Jude's Children's Ranch" to be repurposed into new cards.

I applaud each and every one of you! In fact, many of you went above and beyond by offering clothing, hygiene items and other goods to our charities.

I don't know about you, but I was very moved by our CHP CHiP's for Kids team and their guests at our annual banquet. Here is something that is tangible! We can see what our donation is doing, plus our club is the recipient of respect from Officers Donnell and Vince. Because of this great relationship, this year I will be proposing that our charity efforts are mainly focused on Calicinto Ranch through CHiP's for Kids.

When we make our New Year's resolutions and wish lists we usually say things such as, I am going to exercise more, I want to lose a few pounds, I going to take better care of my Corvette. You get the idea.

What kind of dreams and wish lists do you think kids whose parents are in jail have? I hope I will be part of a happy home this year. I hope my family can be together this year. I hope my mother or father will get out of prison this year. I hope I get to go to the Ranch again.

It makes you feel like your wish is insignificant. While we can't make all of their dreams come true, we can help send them to the Ranch under the care and guidance of Sophia and her staff.

With our help, and with the help of other organizations such as CHiP's for Kids, Calicinto Ranch is helping these same kids realize that there is hope, and that they can dream of a better year.

I would like to revisit an encounter that I had with a teen when the club visited the Ranch last year. "I want to own a Corvette when I get older", he said. I thought, that is a good dream but I wondered how he would reach his goal. What happened shortly after that is what really made me realize the great work the Ranch is doing in reaching these kids and helping them set their goals.

When I raised the hood of my car, a number of boys and girls gathered around. I started asking questions about the different parts of the engine. Sure, they understood what the battery did, but not how it was related to the alternator or how the cooling system worked. After we had finished going through the basic parts and their function, that same boy came up to me and said, "I would like to become a mechanic and work on cars like this." This is when you stop thinking that they are going to be a statistic of a drive-by and realize they can have an achievable dream!

This year I am hopeful that our club will help these children realize a portion of their dreams so that someday, a young man at the garage might come up to you and say, "It was a car like this that helped me realize I could have a life different from my parents."

CSS Banquet - 2013

The 2013 Annual Banquet was held at the John Force Race Station on Saturday January 19th from 6-11pm and it was one of the best banquets that we have been to in a long time. Not only was the evening planned perfectly, but the food was exceptional, the speakers were excellent and the surroundings were jaw dropping. As you can see from this picture, John Force has his own private theater and the marque welcomed Corvette Super Sports.

Chips for Kids founder and our personal BFF, Donnell Holmes arranged for us to use the facility for our annual banquet. The facility worked perfectly for our dinner dance and the race cars and memorabilia that the John Force race team had amassed in the center

was just amazing. The Race station was jaw dropping to say the least. The main floor had a collection of trophies, pictures, race cars, fire suits, helmets, and race tires. At the back of the showroom is the garage where the race cars are maintained. It is an auto mechanic's dream palace. The sets of the tools was mouth watering and the garage had ample space to have 6 cars torn down at one time. The second floor contained a rack of his

funny car shells - basically one for what ever color fancy his drivers might have.

It also had a collection of rare cars including a 1958 Cadillac El Dorado with suicide doors. There was also a collection of kiddie pedal cars.

Donnell invited 2 guests that spoke of how the Chips for Kids program had changed their lives. It was very moving listening to their stories.

One story was about a little girl being able to play soccer during time of financial hardship for her family.

The other was a video of the Calicinto Ranch where children of parents who are incarcerated are given a new outlook on life through the loving kindness of the ranch in a summer camping experience.

The program also included members from the audience speaking about how much CSS means to them. It was very touching hearing the members, one after another talk about how CSS is their extended family and that all of us are so caring towards them.

Near the end of the evening, the MVP trophy was awarded to Geoff Girvin, Newsletter Editor, Social Chairman, an President Elect of CSS.

I can tell you that it is humbling to receive this award because what I do is never too much, and is just a reflection of the passion I have for making our club and events fun for all.

The music was provided by our very own "Dick Clark" aka Tom Cuccio, and his CSS Band Stand. What would a CSS party be without Tom and his music.

This banquet swan song for who was the for 2012. She job making home and end of her club present-token of our esteem. She received a silver serving plate with gold trim. It was a very tender moment. I saw tears in her eyes.

was also the Dianne Wiest CSS President did a marvelous every one feel at important. At the presentation, she ed her with our

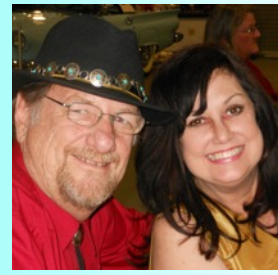

Bert did a fantastic job organizing the entire night. He negotiated the food vendor from Blue Agave and procured donations from the John Force facility for door prizes. He also asked 3 members to tell us what CSS meant to them. Rich Carias, Pat Works and Sue Rosen to speak. They all spoke from their heart and reflected the the deep feeling of family that we all share.

The program also gave me the opportunity to present the Home Land Security Marksmanship and Top Gun Awards to our shooting team. George McMullen and Michele Boucher achieved the highest honors as the Top gun recipients for the year. The rest of the team received Marksmanship awards.

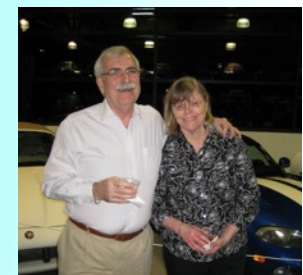

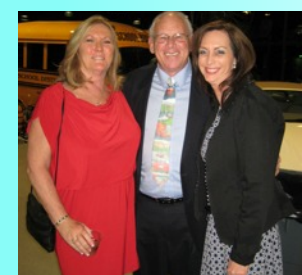

Before the night was up, though, Dianne gave out gifts to her staff for a job well done for 2012.

I think my gift was the best because it fit so well. As all of you know, after leading many caravans to event sites, missing turns and having to hang u-turns, I received a "U-Turn Girvin" T-shirt from Chuck and Sue Rosen. Well this time Dianne went one better. She gave me the equivalent of a paper GPS. I received numerous maps and brochures of places to go just so that I would not make any more mistakes and maybe just maybe find some out of the way place for all of us to go to this year.

As you can see, a good time was had by all especially me!

Home Land Security Training 2013

Our band of agents have again set out on a path of training and skills enhancement for 2013. We would like to thank all those that heard the call for additional agents at the banquet and came out to join us. We have decided to meet on the last Saturday of each month at the Sporting Clay Range. This month however, the rain came and did not let up so we decided to see how accurate we were at an indoor range.

The indoor range belongs to the gentleman that owns the archery range that we visited a year ago or so. The range had plenty of space available and there was excitement in the air when we arrived for target practice.

A dozen of us took our guns to the range to see what it was like to shoot targets without having to be annoyed by mud. We paired up and shot at paper targets for 2 hours.

Not only did we have our regulars, but we had 2 new CSS members who were fulfilling a "bucket list" outing and we had Jim and Tina Reed from IEC join us too.

Jim and Tina have shot with us before and this year they are joining us as a team so that we can have some friendly inter club competition. Jim and his friends are looking forward to competing with us throughout the year, although the rain on this outing seemed to dampen their friends spirits and only Jim and Tina showed up. The following picture is Jim in the range having a good time.

The CSS members attempting to riddle paper targets was Geoff, Art, Joe and Cindy, Pat Works, Greg Glodery, John and Michele and our newcomers for this event, Jay and Marcia Lynch.

Marcia told me that this outing was a "bucket List" day because she has always wanted to understand

how a hand gun works and what it is like to shoot one. Well this day was a watershed day for Marcia based on her non stop grinning.

But speaking of grinning, it seems that Michele should

really be nick named "Annie Oakley". Michele is amazing and handles her weapon just like Annie Oakley did.

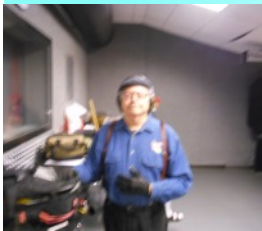

Others had smiles as well. Cindy had a big smile on her face but I am not sure it it was due to the fact that she was having fun or if the noise of Joe's 357 going off

had finished. Pat brought a 41 caliber rifle that was such a sweet machine that when I tried it, I practically put all 4 slugs inside the same hole.

As you can see the alley ways are set up with target sleds that move the targets out and back for quick check-

ing of results. I on the other hand just push the slug through the target before it gets set.

After shooting we went to lunch to relive the day.

NCCC National News.

As the new year gets rolling along, I found that the web site for NCCC actually has some very interesting features that most of us skip over due to the use of bookmarks that we have saved from previous access to the site. One such

tid-bit of information is the new membership card mailings for our club, whose designation is WC-326. WC stands for West coast Region and 326 is our club's registration number. Each of us have these coded in front of our individual membership numbers. According to NCCC, our membership cards were mailed on or about 12/31/2012. So if you have not seen them yet, talk to Joe Orrico, our NCCC Governor. Another good link to bookmark is the following:

<http://www.corvettesnccc.org/whatsnew.html>

This link lists all the changes that are new to the web site as of January 1st 2013 and of special note to us point chasers, the 2013 Competition Rule Book is now available

******Updated all of the Web Site to reflect 2013 information and links.

******Updated information pertaining to the [2013 NCCC Elected Officers](#).

******Added a new [Regional Officers](#) page under Officers.

******Posted the [2013 NCCC Competition Rule Book](#).

******Posted the updated [NCCC By-Laws](#).

******Posted the updated [NCCC Standing Rules](#).

******Updated the [Public Relations](#) to include the NCCC Promotional Displays for Club use information for 2013.

Another link on the site contains information about the conventions: <http://www.corvettesnccc.org/Conventions.html>

The NCCC 54th Convention will be held in Bowling Green Kentucky from June 24-28th 2013. Registration will be available on February 1st, 2013.

Finally, a message from the NCCC President:

Thank you for viewing our web site. We have a lot to offer! Give us a look.

The National Council of Corvette Clubs is an all volunteer organization dedicated to serving the needs of the constituent clubs and their individual members. We are Corvette clubs, large and small, comprising sixteen regions with over 270 individual clubs, and thousands of active members. We offer many

activities to enhance almost any Corvette ownership experience. This web site can give you insight into these various activities. It represents the enthusiasm, excitement and family that is NCCC.

There are many benefits that permit clubs and their members to confidently pursue the activities that interest them. We provide a comprehensive insurance program that can cover most any activity that a club might want to promote. Our competition sanction program is a great way to discover the performance aspects of your Corvette. It includes showing, parading, touring and even racing.

Each year a group of volunteers stages a National Convention where NCCC members from the entire country can gather for a week of high powered Corvette fun. Many of these events are sponsored by significant Corvette related businesses that contribute to the experience.

A membership includes our quarterly magazine "*Blue Bars*" which features member's cars, club activities, results and Regional news. It is a great source of information and a substantial historical record. We support the Future Corvette Owners Association for younger enthusiasts up to age sixteen. We have local clubs that support worthwhile charities and sponsor countless events to the benefit of their communities. Nationally, we support the National Kidney Foundation by a new Corvette Raffle.

Contact information is posted here. Membership information too! If you have a comment or question, please let us know.

Enjoy your Corvette and enjoy the Corvetters. Both are America's best.

**Hal Bellamy
President
National Council of Corvette Clubs**

Be sure to check out the NCCC Website regularly because you never know what you might find.

NCCC West Coast Regional News.

The big news for the West Coast Region is the upcoming regional convention to be held in Las Vegas from April 4th through 7th. Unlike the National conventions where one club hosts the entire event, this year's Regional convention will be

hosted by multiple clubs that have specific areas of expertise. The following clubs will be hosting their special events as shown:

- Low Speed Host Club: Vettes'R'Us
- TimeTrials Host Club: Corvette Super Sports
- Poker Rally to the track: Host Club: Inland Empire
- Sat. Car Show: Host Club: The Vette Set
- Sat. Rallies Host Club: Las Vegas Corvettes and Pomona Valley

The Flyer and Registration form are at the back of the Newsletter. The convention center will be the Silverton Casino. You should make your reservations now by calling 866-722-4608 and telling the reservation person that you are part of Code: SCICOR4 PRICE: WED, THUR & SUN \$59 FRI-SAT \$79 + TAX NO RESORT FEES

Technical Corner

At a recent Car Show, I had the opportunity to discuss an electronic tracking device with Pat Works that has become very useful to race drivers. The product will be reviewed in a future column to understand its versatility. It turns out that a personal friend of Pat Works has one and would be available for an interview and a working demo.

The G2X is a compact, but robust data logger that benefits from Racepak's 20 + years of motorsports data system design and construction. Many features of our professional data systems were incorporated into the G2X, providing an accurate, dependable and easy to use data logger.

The G2X is able to interpret signals from GPS satellites to quickly establish the position and movement of the vehicle. From this monitored data other performance parameters can then be calculated. The G2X has the ability to provide you with track mapping, lap times/number/distance, segment times, miles per hour, lateral G-force, and acceleration G-force. With 128 MB of memory over 20 hours of GPS data can be stored.

Enhancing the features of the G2X is its versatile digital display dash that will provide the driver with a display of lap times, lap number, per lap gain/loss, gear indicator, progressive shift light, battery voltage, and G-forces. Engine RPM is available to those with an ignition system that provides a tach signal output, and three additional inputs from external sensors can be displayed on the dash.

When the vehicle is stationary the gear indicator becomes a display of the number of satellite currently being monitored. The dash is also used to provide a means of defining the start/finish line while on the track, thus providing immediate access to displayed data. The dash can be attached to a steering wheel or mounted on the dash panel. A single cable provides the connection between the G2X and the dash.

Channels:

V-Net: 12, Internal: 4
