President Tony

Southern California has its ups and downs and plusses and minuses, but when it stops raining and the weather turns nice for the weekend, it's time for a Car Show! So Cal is

the capital of car shows. Any weekend you can find as many as 10-15 shows in L.A. and Orange Counties.

This past weekend was the one to go to after two weeks of rain. Saturday was a perfect day with not a cloud in the sky for over 400 cars to assemble for a great car show.

Shows may be on Saturday or Sunday, but getting ready starts much earlier in the week with cleaning, gassing up and general maintenance of the car.

Lots of car people come to the shows with the goal of winning a trophy. Some people who don't have a "Con Cours" quality car, just come for the attention and of course, spending the day with a bunch of guys and gals who have cars in mind. I personally like to watch people and talk to people about my car. The line usually goes: "I had one just like this one back in 1970," and then "I had our first child and three doesn't fit in a two seat car."

But, the satisfaction comes when people stop and say this is a really nice car. Trophies are nice, but two thumbs up from a fellow car guy also ranks pretty high.

The Officers, Board and Members have been working on the 60th Anniversary of CSS. We are going to have a picture taken by a drone of our beautiful Corvettes parked in the shape of "60." Pam DeForrest is making arrangements for the drone and I have made arrangements to have it taken on a grass field in Fullerton. So, all of you need to be ready to do this on a Sunday afternoon in March.

NCCC PRESIDENT's MESSAGE: February 2019

Winter is Here!

It's February and winter is here with a vengeance! Here in northern Illinois the temperature has been sixteen below zero (the actual temperature – not the wind chill) and six to ten more inches of snow are forecast. I'm looking forward to Spring.

As president of NCCC, I have the honor of sitting on the Board of Directors for the National Corvette Museum. We have had one tele-conference and will have our first board meeting of 2019 mid February in Nashville, TN. NCCC has had a long relationship with the National Corvette Museum and I look forward to that continuing as the Museum celebrates its 25th anniversary.

February brings the first NCCC Governors meeting of 2019 in St Louis, MO. If you ever get a chance to attend a meeting, I suggest you make an effort to do so. All NCCC members are welcome. On Friday afternoon and evening various committee meetings take place and a hospitality room gives everyone a chance to mingle. Saturday morning consists of several Regional meetings and the executive board meeting. Saturday afternoon is the actual NCCC Governors meeting where the business of the organization takes place. I've attended most of these meetings during the last 35 or so years, both in an official capacity of some sort, and also just as an interested NCCC member. It's a good opportunity to learn more about how NCCC works, say Hi to old friends, and meet new friends.

February also brings the opening of Registration for the annual NCCC Convention. I've been to most every major Corvette gathering in the United States and while I have enjoyed them all, I think the NCCC Convention offers the most bang for the buck. The 2019 Convention will be in Denver, Colorado and your hosts are busy planning a full week of activities for you to enjoy. There is so much to see and do in the Denver area – maybe a week isn't long enough. I'll let Convention Director Cindy Urenda provide some more details and please check out the link on our web site for more details are On the **NCCC Website** under Conventions. Hope to see you there.

That's it for now – stay warm, Spring is coming soon.

Dale Samuelson
NCCC President

RMD's Message: February 26, 2019

Hi Governors,

For the new governors information. Your regional officers, Allen Morris (Regional Executive), Joe Orrico (Regional Competition Director) and I (Cliff Harris, Regional Membership Director) go to St. Louis, MO 4 times a year for the national NCCC meetings. Committee meetings on Friday and the national governors meeting on Saturday.

Friday, February 22. Membership Committee meeting.

We currently have 17,297 members. This number is compared to the 17,388 members we had in February, 2018. We will gain members throughout the year as new members join and old members renew late.

There is a bug in the database that causes the focus to go back to the main menu when adding a new member. If you don't choose an existing member, the only choice is "Logout". The new member information is lost as if nothing had been done. There are a couple of workarounds at this time. One is to enter a nonsense last name like "JKL", which won't match with anybody in the database and you can proceed as usual to add the new member and go back and fix the JKL after submitting the information. I have been told that you can leave the last name blank until all the other information is entered, thus avoiding the name matching popup.

Everybody should have a plastic 2019 membership card by now. You can contact Amelia if there is a problem with a card. If you want to generate an electronic card, you can do that by using the following URL:

<https://www.corvettesnccc.org/NCCCMemberDatabase/MembershipCards/MembershipCard.php?ncccNumber=>

Put the NCCC # at the end.

Saturday, February 23. National Governors meeting.

VP of Competition Joe Eller said that the new competition code will allow an experienced driver to ride with a beginner who got lost on the course. The current code does not allow ridealongs because that would presumably give that person an advantage when he/she did her/his own runs.

VP of Membership Amelia Workman said there were 2,307 new member packets in 2018. Membership cards will continue. Governors will receive an email when a member leaves their club and transfers to another club.

2018 Treasurer Betty Parks said we came out about \$50K in the black for 2018. \$16.5K came from the Convention in New Orleans and about \$12K came from renewing members. \$30K was spent for officer travel reimbursement.

Business Manager Jim Walton said that incident forms should be filled out if there is a potential insurance claim.

The 2019 Convention in Denver, CO was discussed and registration is still open.

The 2020 Convention will be in Indianapolis, IN.

There has not been a bid submitted for the 2021 Convention, so Jim is looking for submissions.

That's all for now. Comments and suggestions welcome. I always say that and never get any. We'll see how that goes this time...

See ya,

Cliff

Vapor Trails Vettes has dominated the year and their club has 38 members! Well done VTV.

Gary M's grandson, Dean, is being trained by Grandpa on how to take care of his new battery powered 63 Corvette he got for Christmas. Of course, you must put in the best gas possible, and keep your car shiny and clean.

He's only two years old. You can never start them too early on how to maintain a Corvette. Great job, Dean!

Where You Can Find Corvette Parts and Merchandise

For those of you who have been into Corvettes for awhile most – or all – of the following will not be news to you, but for you relative newcomers to the love of Vettes this offering is being made to help you find the parts you may need for your classic or the trim add-ons you might want to buy to personalize your Vette or the clothing, gear, etc. you might like to own to show others of your interest in the sport.

It's amazing just how many publications are out there that are dedicated to Corvettes and how helpful many of them can be. Following is a list and quick summary of the more popular catalogs that you might want to look into. Most of them are available for routine periodic mailing if you request it, and most of them have a web site from which you can peruse their offerings. Me, I prefer to receive the catalogs so that I can better see just what's out there I might not have not seen before.

The three largest, most popular catalogs with the most items that are non-"parts" are:

- a. Mid America Motorworks, www.mamotorworks.com, (800) 500-1500;
- b. Eckler's Corvette, www.ecklersCorvette.com, (800) 327-4868;
- c. Corvette America, www.CorvetteAmerica.com, (800) 458-3475.

Those publications periodically also publish catalogs geared specifically for a single generation of Corvettes so when they ask you for the year and model you drive don't be afraid to tell them.

Then there are catalogs that are almost exclusively for parts, especially of older model Corvettes:

- a. Volunteer Vette Products, www.volvette.com, (865) 521-9100;
- b. J & D Corvette, www.jdcorvette.com, (800) 838-8353 (located locally in Bellflower, CA).

For trim and accessory items as well as clothes, furniture and the like, you should look at:

- a. Corvette Central, www.CorvetteCentral.com, (800) 345-4122. They have an accessories catalog and a separate catalog of parts, etc., for each generation of Corvettes.
- b. Burston Marketing's Corvette Collection, www.CorvetteCollection.com, (800) 653-1375.
- c. And finally, the catalog from the retail store at the National Corvette Museum, www.CorvetteMuseum.org, (800) 538-3883.

In addition to the above, you might also consider visiting the show rooms of Corvette Mike's at 1133 North Tustin Avenue and West Coast Corvettes, 1210 N. Kraemer Blvd., both are located near each other in Anaheim just off the 91 freeway in Anaheim. They have a selection of GM authorized accessories and clothes for sale, as well as an indoor Corvette sales room with used road gems. Both also maintain service departments for installing accessories and the like and for general maintenance of Corvettes. West Coast Corvettes has a new catalog that was just released and is available for pick-up at the store. (Price is pre-printed on each catalog as \$12.95, but don't be fooled, they're free - just ask for one.)

These events are sanctioned by the National Council of Corvette Clubs, Inc. (NCCC). Autocross classifications are as outlined in NCCC guideline. Non-NCCC Corvettes that meet the safety and classification requirement of a NCCC class may participate in that class for trophies but they will not be awarded points, nor affect member's points.

Registration is accepted online only at motorsportreg.com. There will be no registration the day of the event. If two participants are driving the same car, both must register as separate drivers. Participants must be 18 years old. Registrants will receive an email registration confirmation with car number. Please be sure your email address is correct on your online registration.

SNELL approved "SA" or "M" helmets less than 10 years old are required. Drivers must wear securely fitting shoes with closed toes. Entrants will be divided into groups for both the morning and afternoon events. Unless physically unable, all participants will be asked to volunteer as course safety workers.

We strongly urge you to arrive no later than 8:00am. No one will be allowed to enter after 8:00 am. Weather - Come to Panama in February, March, September and October for the least chance of rain, although any month from mid-December to the beginning of May is fairly dry. The Panama Canal Zone has a tropical climate ranging from 75 to 85 degrees Fahrenheit, with high humidity year-round. The Caribbean side of the canal receives twice the amount of rain as Panama City and is infamous for having short, sudden afternoon thunderstorms from April through July.

Our Panama Canal Cruise on the Carnival Miracle will surely be a truly amazing experience that should not be missed. The Panama Canal is an engineering marvel built from 1903-1914. About 14,000 ships use it every year. The canal is about 48 miles long. It functions as a waterway between North and South America. The canal connects the Atlantic and Pacific Oceans. Before the canal was built, ships had to sail 13,000 miles around the tip of South America and Cape Horn. How do the ships get raised and lowered? The canal has a water lock system that acts like a massive elevator. When ships enter the locks, they're raised by water from the lake. Each lock raises the ships until they're 85 feet above sea level. They then travel across Gatun Lake. The ship is then lowered by the locks to sea level. On average, it takes 8 hours for ships to cross the canal. WOW! Our one-way cruise from Tampa to Long Beach, cruising through all of the canal's impressive locks will allow us to witness - first hand this marvel of modern engineering. The complete journey takes about 8-10 hours in each direction. What a wonderful sight to see!!

Our cabin allotment above is very limited but can source out any type of cabin for you. Interiors, Spa Balconies, Spa Suites, Ocean View, Grand Suites & more. Please contact us for further help. We can locate that cabin of your dreams!
