## USS BATTLESHIP IOWA

Special tour with Art and his grandson.

## President Tony

Charles Dickens wrote in, A Tale of Two Cities, "It was the best of times. It was the worst of times."

Most of us corvette owners are reaching or have reached the golden years of our life. But, it seems we have saved the best for last. Many older folks are buying their first or second corvette and having the rebirth of our youth. Joining a corvette club and becoming involved in the corvette family can be the best of times.

Having a friend or relative in the hospital can put a lot of stress on a family. It may seem like the worst of times. But, when you sit back and reflect on just how much modern medicine has advanced it changes a lot of things.

Since my wife Laura has been in the hospital, I have come to realize just how amazing modern medicine has advanced. Just talk to your doctor and ask him where we have come in the past ten years.

Thanks to all who sent cards and good wishes for Laura's recovery.

June events were very exciting. Starting the month we had 13 corvettes get waxed and cleaned at Aero Wax Company in Bellflower. We then took our clean and waxed corvettes to Irwindale Speedway for a trip around the track and watch the races. Finally, a large group went to the Battleship Iowa for a tour of the engine room and the upper decks. Thanks to all who organized these trips and all who attended. Fun was had by all!

ANSWER TO MAY TRIVIA QUESTION: What year was the first Big Block offered in the Corvette?

Answer: 1965

JUNE TRIVIA QUESTION: What movie was about a Corvette?

Answer next month. It's a 10 point question.

CORVETTE TIMELINE: June 30, 1953. The first production of the Corvette rolls off the assembly line at a temporary facility on Van Slyke Avenue in Flint Michigan.

## NCCC PRESIDENT's MESSAGE: June 2019

**Hurray for June!**

**May brought some interesting weather** and it looks like that weather will continue into June. Oppressive heat, tornadoes, and major flooding are affecting various parts of the county and I hope and pray that you are all safe.

**May also brought the second NCCC meeting of 2019.** Check with your club governor or Regional officers for details. One item of business of note was the appointment of the Director of FCOA. The executive board interviewed three candidates over the period of two NCCC Governors meetings and all three candidates were well qualified and would have done a great job. In the end, the appointment went to Shannon Davis and the governors confirmed the nomination at the Saturday afternoon meeting. I look forward to having Shannon on board. I believe Shannon will bring some new ideas to the program and insure that the Future Corvette Owners Association continues to grow. Shannon has included a short introduction below.

**The 2019 NCCC annual convention** will be here soon and registration will be closing shortly. Regardless of your interests, this convention will have something for you. Day trips, parties, car shows, competitive events and more are sure to make for a fun filled week. I'll be there and hope you will too. Check out the NCCC web site for details: <https://www.corvettesnccc.org/Conventions.html>.

**Excitement is building as the next generation Corvette** will be officially revealed to the public soon. GM is giving out details in bits and pieces. We now know the date (7/18/2019) and the general location (Orange County, California). Other details are mostly speculation or rumor. I know I'm excited and looking forward to seeing the new car.

**NCCC will be participating in the Bloomington Gold show**, held June 20 thru June 22 in Indianapolis, Indiana. We will have a hospitality area and this will be a great opportunity to introduce NCCC to non-members. If you're going to the show, stop in and say Hi.

**Despite the wild weather, my calendar seems to be filled** with Corvette related activities. My local club is involved with parades, car shows, and drive-outs and there seems to be enough activities to fill most every weekend. Add to that sanctioned competitive events around the country as well as some major shows and I think I need some more weekends. I hope you are taking time to enjoy your Corvette and your Corvette friends.

**That's all for now – see you out there.**

**Save the Wave,  
Dale Samuelson  
NCCC President**

## Where You Can Find Corvette Parts and Merchandise

For those of you who have been into Corvettes for awhile most – or all – of the following will not be news to you, but for you relative newcomers to the love of Vettes this offering is being made to help you find the parts you may need for your classic or the trim add-ons you might want to buy to personalize your Vette or the clothing, gear, etc. you might like to own to show others of your interest in the sport.

It's amazing just how many publications are out there that are dedicated to Corvettes and how helpful many of them can be. Following is a list and quick summary of the more popular catalogs that you might want to look into. Most of them are available for routine periodic mailing if you request it, and most of them have a web site from which you can peruse their offerings. Me, I prefer to receive the catalogs so that I can better see just what's out there I might not have not seen before.

The three largest, most popular catalogs with the most items that are non-"parts" are:

- a. Mid America Motorworks, [www.mamotorworks.com](http://www.mamotorworks.com), (800) 500-1500;
- b. Eckler's Corvette, [www.ecklersCorvette.com](http://www.ecklersCorvette.com), (800) 327-4868;
- c. Corvette America, [www.CorvetteAmerica.com](http://www.CorvetteAmerica.com), (800) 458-3475.

Those publications periodically also publish catalogs geared specifically for a single generation of Corvettes so when they ask you for the year and model you drive don't be afraid to tell them.

Then there are catalogs that are almost exclusively for parts, especially of older model Corvettes:

- a. Volunteer Vette Products, [www.volvette.com](http://www.volvette.com), (865) 521-9100;
- b. J & D Corvette, [www.jdcorvette.com](http://www.jdcorvette.com), (800) 838-8353 (located locally in Bellflower, CA).

For trim and accessory items as well as clothes, furniture and the like, you should look at:

- a. Corvette Central, [www.CorvetteCentral.com](http://www.CorvetteCentral.com), (800) 345-4122. They have an accessories catalog and a separate catalog of parts, etc., for each generation of Corvettes.
- b. Burston Marketing's Corvette Collection, [www.CorvetteCollection.com](http://www.CorvetteCollection.com), (800) 653-1375.
- c. And finally, the catalog from the retail store at the National Corvette Museum, [www.CorvetteMuseum.org](http://www.CorvetteMuseum.org), (800) 538-3883.

In addition to the above, you might also consider visiting the show rooms of Corvette Mike's at 1133 North Tustin Avenue and West Coast Corvettes, 1210 N. Kraemer Blvd., both are located near each other in Anaheim just off the 91 freeway in Anaheim. They have a selection of GM authorized accessories and clothes for sale, as well as an indoor Corvette sales room with used road gems. Both also maintain service departments for installing accessories and the like and for general maintenance of Corvettes. West Coast Corvettes has a new catalog that was just released and is available for pick-up at the store. (Price is pre-printed on each catalog as \$12.95, but don't be fooled, they're free - just ask for one.)

**Weather** - Come to Panama in February, March, September and October for the least chance of rain, although any month from mid-December to the beginning of May is fairly dry. The Panama Canal Zone has a tropical climate ranging from 75 to 85 degrees Fahrenheit, with high humidity year-round. The Caribbean side of the canal receives twice the amount of rain as Panama City and is infamous for having short, sudden afternoon thunderstorms from April through July.

Our Panama Canal Cruise on the Carnival Miracle will surely be a truly amazing experience that should not be missed. The Panama Canal is an engineering marvel built from 1903-1914. About 14,000 ships use it every year. The canal is about 48 miles long. It functions as a waterway between North and South America. The canal connects the Atlantic and Pacific Oceans. Before the canal was built, ships had to sail 13,000 miles around the tip of South America and Cape Horn. How do the ships get raised and lowered? The canal has a water lock system that acts like a massive elevator. When ships enter the locks, they're raised by water from the lake. Each lock raises the ships until they're 85 feet above sea level. They then travel across Gatun Lake. The ship is then lowered by the locks to sea level. On average, it takes 8 hours for ships to cross the canal. WOW! Our one-way cruise from Tampa to Long Beach, cruising through all of the canal's impressive locks will allow us to witness - first hand this marvel of modern engineering. The complete journey takes about 8-10 hours in each direction. What a wonderful sight to see!!

*Our cabin allotment above is very limited but can source out any type of cabin for you. Interiors, Spa Balconies, Spa Suites, Ocean View, Grand Suites & more. Please contact us for further help. We can locate that cabin of your dreams!*
